PROFESSIONAL SUMMARY

Experienced professional transitioning from Software Engineering to Senior Software Engineering roles. Bringing over 3 years of expertise in software development with transferable skills in full-stack web and mobile app development. Proven ability to lead teams and deliver scalable, user-centric applications that improved client engagement and deployment efficiency. Eager to contribute to innovative technology solutions with impactful user experiences.

WORK EXPERIENCE

Sr. Software Engineer – Magic EdTech

December 2024 – Present | Noida

- Led a team of 4 engineers to deliver 10+ web and mobile features using React.js, Next.js, Angular, React Native, Recoil, and Tailwind CSS.
- Integrated Tap Payment, Shiprocket, and Firebase for payments, delivery, and notifications.
- Managed app deployments to Play Store and App Store; conducted client meetings and followed Agile practices.
- Boosted app performance by 70%, UI responsiveness by 30%, and reduced crash rates in 2-3 months.

Software Development Engineer – Metafic

July 2024 – December 2024 | Remote

- Developed features for production-level web and mobile applications using Next.js and React Native.
- Collaborated in a remote Agile team, using GitHub for version control, handling pull requests, merge conflicts, and deployment workflows.
- Worked on key projects including an E-commerce platform and a Consulting Booking system, contributing to both frontend logic and UI.

Associate Software Engineer – Swift Media Labs

April 2023 – June 2024 | Remote

- Developed scalable front-end and back-end features using Angular, Next.js, MongoDB, and Tailwind CSS.
- Integrated payment and authentication systems such as Razorpay and Firebase in a multi-buyer, multi-seller e-commerce platform.
- Improved application performance through optimized API communication and frontend rendering strategies.

EDUCATION

Acropolis Institute of Technology and Research, Indore – Indore

June 2024

B.Tech, Computer Science Engineering

8.52 CGPA

SKILLS

Technical Skills: Languages: C, C++, JavaScript, TypeScript, Dart, Python, Frameworks & Libraries: React Native, React.js, Next.js, Angular, Node.js, Express.js, Flutter, Django, Databases: MongoDB, Tools & Platforms: Git, GitLab, Postman, CI/CD, VS Code, Cloud & Deployment: AWS (EC2, S3), Google Cloud Platform (GCP), Vercel, Core Competencies: API Development, Frontend Web Development, Mobile Application Development, Agile Development, Cloud Computing, Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming (OOP), Database Management Systems (DBMS), Software Development Life Cycle (SDLC), Agile Methodology

Soft Skills: Leadership, Team Player, Dedicated and Reliable, Creative Thinker, Public Speaking and Communication, Problem Solving, Adaptability, Time Management, Collaboration, Growth Mindset

PROJECTS

Eventi-Fi: Find your local talent (Personal Project)

Mar 2025 – Present

- Built a full-stack platform connecting local artists with venues and planners for bookings and payments.
- Implemented artist availability, video uploads, rate-setting, group formation, and secure Stripe/PayPal integration.
- Architected backend for authentication, booking, and user roles; optimized for scalability and performance.

Event Horizon (Personal Project)

June 2023 – Dec 2023

- Developed an Event Management System for campus users with event discovery, registration, promotion, and check-in.
- Implemented personalized calendars, venue booking, and QR code check-in.
- Used React Native, Node.js, Express.js, and MongoDB; served as developer, UI designer, and tester.
